How do you want shipments?

- Option #1:** Items will be polybagged and shipped individually to each address, with the additional option for customers to pick up their orders at Borderline Unique. This is the most popular method.
- Option #2:** Items will be sorted, polybagged, labeled by name, and packaged individually for easy distribution at a later time. This is a great choice for teams. We highly recommend this for easy distribution.
- Option #3:** Items will be printed in bulk, folded and placed in a box for distribution at a later time. This is suitable for large orders where individual packaging is not necessary.
